

Sloly wants to come to the meeting

The Mayor should be able to bring his team. I imagine Peter is concerned we will talk about him

Perhaps we can ask some questions of his officials through the Mayor.

PM speaking to mayor Watson

Just heard him say that in QP

Watson also says they have applied to province to raise fines of idling etc

Rigorous enforcement of bylaws with large set fines can be a very effective tool to incentivize the removal of the trucks.

This should have been among the very first things the OPS did.

PM says we are there to give more
